

Beyond Coatings

Open Doors to Unmatched Quality with PPGI

PPGI Sheet

Base Metal
Zinc Coating
Pre-Treatment
Primer Coating
Top Coat
Guard Film

- ✓ Ultimate Durability
- ✓ Exquisite Finish
- ✓ Rust Resistance
- ✓ Precision Engineering
- ✓ Thickness Remains Same 1.5mm

Powder Coated Sheet

Base Metal
Zinc Coating
Powder Coating

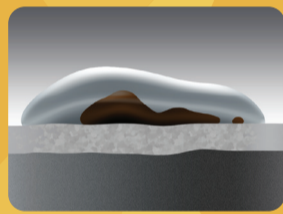

- ✗ Ultimate Durability
- ✗ Exquisite Finish
- ✗ Rust Resistance
- ✗ Precision Engineering
- ✗ Thickness Change 1.4mm to 1.6mm

Why choose this

Dipping into Molten Zinc Ensures smooth finish and no bubbles

Prevention from Rusting due to presence of Zinc

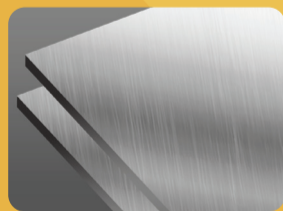

No peeling as made from Galvanization process

No moisture absorption due to Curing (Baking at high temperature)

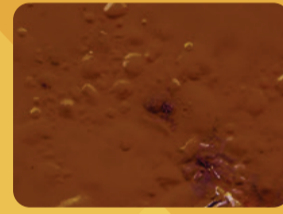

Prevents Popping due to Hot dipping in zinc coating

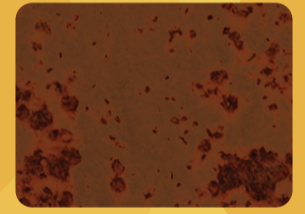

Pre-treatment to improve adhesion ensures no Bleeding

Why deny this

Develops Bubbles due to drying and air trapping

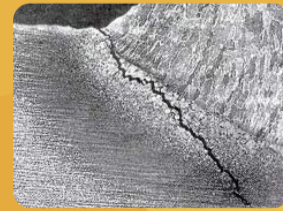

Rusting due to contact with chemical agents

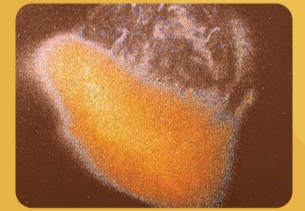

Peeling due to the presence of wax, fat, silicon oil or other releasing agents

Develops Blisters due to Moisture Absorption

Base Popping due to Hot Dipping in High Temperature

Bleeding due to the use of hardener (peroxide)

Our PPGI Door and Window Frames represent craftsmanship and innovation.

Choose Manvik

the perfect blend of strength, style, and sustainability as we are setting a new standard in the world of door and window frames.

Elevate your interiors with Manvik PPGI Door and Window Frames.

Explore Our Collection Today and embrace the fusion of aesthetics and durability.

YOUR SPACES DESERVE THE **BEST**

Opening Doors to Unmatched Quality with PPGI

Who We Are

Founded in 2004 in Sirsa, Haryana, Manvik stands tall as a beacon of top-tier metal door & window frames.

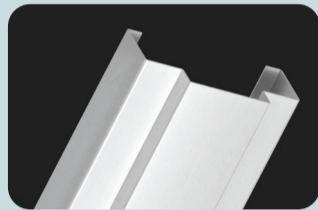

Our ISO 9001:2015 stamp? That's proof of our relentless quest for quality. We are setting a new standard in the world of door and window frames and here is why you need to choose us over other brands

Features

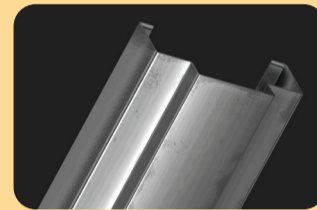

Manvik

Others

Sheet Quality

PPGI (Pre-Painted Galvanized Iron)

Uncertain quality

Measurement Tool

Digital tool for sheet thickness

No measurement guarantee

Manufacturing Machine

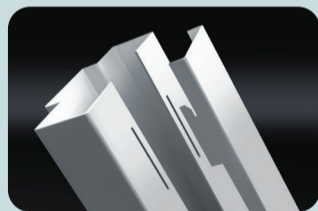

Roll Forming Machine

Press Break Machine

Welding

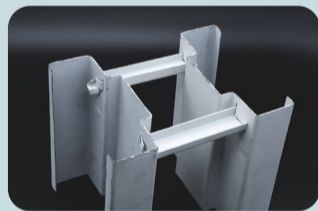

Minimal + Centre Partition

Excessive welding

Channel Protection

Lock system for rust protection

Welding causes rust

Length Measurement

Accurate measurements

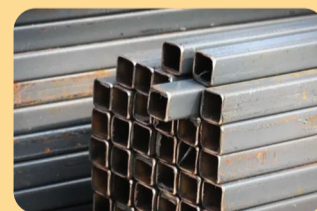

Inaccurate lengths

Material Used

Stainless Steel (precise gauge & grade)

Uncertain material

Lock Hole Position

Inside center lock cap

Outside lock cap
